

# ANAS ADNAN ALFURAYDI

Data Analyst | Business Intelligence | Power BI | SQL | Python

✉ [alfuraydianas@gmail.com](mailto:alfuraydianas@gmail.com) ☎ +966 533172147 📍 Riyadh, Saudi Arabia [in](#) [LinkedIn](#)

## PROFESSIONAL SUMMARY

Computer Information Systems (CIS) Graduate with hands-on experience in end-to-end data pipeline from data cleaning and transformation (ELT) to visualization and stakeholder reporting. Hands-on experience in Power BI including DAX, Data modeling, SQL, Python, and Metabase, with a proven ability to translate complex datasets into actionable business insights. Passionate about data analytics and committed to continuously learn and grow in the field of Data and AI.

## SKILLS

- |                         |                                   |                         |                      |
|-------------------------|-----------------------------------|-------------------------|----------------------|
| • Power BI              | • Excel                           | • Analytical Thinking   | • Data Visualization |
| • ETL                   | • DAX                             | • Requirement gathering | • Communication      |
| • Problem-Solving       | • Data Storytelling               | • Metabase              | • Leadership         |
| • Time management       | • High Attention to Detail        | • Python                | • SQL                |
| • Business analysis     | • Data Modeling                   | • Design thinking       | • Power Query        |
| • Pandas                | • Data Cleaning                   | • Data Transformation   | • KPI Reporting      |
| • Dashboard Development | • Exploratory Data Analysis (EDA) | • NumPy                 | • Trend Analysis     |

## PROFESSIONAL EXPERIENCE

- Data Analyst Intern, Osarh - Arabic EdTech Platform** 06/2025 – 08/2025
- Analyzed operational datasets to identify growth trends and KPIs supporting decision making.
  - Designed and deployed 4 interactive dashboards reducing manual reporting efforts by 30%.
  - Cleaned and validated datasets containing 5,000+ records, improving reporting accuracy.
  - Presented findings to team leader, translating complex data into clear recommendations for operational efficiency.
  - Operated in a startup environment with full ownership of tasks, demonstrating initiative and cross-functional collaboration.

## PROJECTS

- AdventureWorks Sales Intelligence Dashboard, Power BI**
- Built a multi-page Power BI report utilizing DAX to calculate KPIs (Revenue, Orders, Returns) and Product Performance.
  - Developed Geographic Sales Maps and Customer Segmentation models to provide deep business insights.
  - Created 15+ DAX measures for revenue growth, profitability and order analysis.
  - Implemented drill-through pages and interactive filters to enhance user exploration.
- Sales Performance Analysis Dashboard, Power BI**
- Developed an analytics solution featuring dynamic Slicers and KPI Cards to visualize sales distribution across multiple dimensions.
  - Applied visualization best practices to ensure clear storytelling and identification of the top-performing regions.

## EDUCATION

- B.Sc. in Computer Information Systems, Taibah University** 06/2026  
Madinah
- Interactive Map of Madinah, Database & GIS Project**
- Designed a relational database schema in SQL to organize and manage geographical data for an interactive mapping application.
  - Applied database modeling techniques to improve data integrity, consistency, and query performance.
  - Developed a scalable database structure to support efficient access to location-based information and analytical workflows

## PROFESSIONAL DEVELOPMENT

**STEP English Proficiency Test**  
Score: 83

## ADDITIONAL INFO

**Languages**  
Arabic (Native) | English

**Mobility**  
Willing to relocate
