

ANAS ADNAN ALFURAYDI

Data Analyst | Business Intelligence | Power BI | SQL | Python

✉ alfuraydianas@gmail.com ☎ +966 533172147 📍 Riyadh, Saudi Arabia [in LinkedIn](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Information Systems graduate with hands-on experience in data analysis, business intelligence, and operational reporting. Experienced in gathering, cleaning, and transforming data using SQL and Python, developing interactive dashboards, and delivering actionable insights to support business decisions. Strong analytical and problem-solving skills with the ability to collaborate with cross-functional teams, improve operational processes, and communicate findings effectively.

SKILLS

Power BI	Excel	Analytical Thinking	Data Visualization
ETL	DAX	Requirement gathering	Communication
Problem-Solving	Data Storytelling	Metabase	Leadership
Time management	High Attention to Detail	Python	SQL
Business analysis	Data Modeling	Design thinking	Power Query
Pandas	Data Cleaning	Data Transformation	KPI Reporting
Dashboard Development	Business Reporting	NumPy	Trend Analysis
Operational Reporting	Data Gathering	Stakeholder Communication	Research

PROFESSIONAL EXPERIENCE

Data Analyst Intern, Osarh - Arabic EdTech Platform - Analyzed operational datasets to identify business trends, support decision-making, and provide actionable insights for operational improvements. - Designed and deployed 4 interactive dashboards that automated reporting, improved KPI visibility, and reduced manual reporting efforts by 30%. - Gathered, cleaned, validated, and transformed datasets containing 5,000+ records to improve reporting accuracy and support business requirements. - Presented analytical findings and reports to stakeholders, translating complex data into actionable business recommendations. - Collaborated with cross-functional teams in a startup environment, taking ownership of assigned tasks and contributing to operational efficiency.	06/2025 – 08/2025
---	-------------------

PROJECTS

AdventureWorks Sales Intelligence Dashboard, Power BI - Developed an interactive business intelligence solution to support business reporting, KPI monitoring, and executive decision-making. - Developed Geographic Sales Maps and Customer Segmentation models to provide deep business insights. - Created 15+ DAX measures for revenue growth, profitability and order analysis. - Implemented drill-through pages and interactive filters to enhance user exploration.
Sales Performance Analysis Dashboard, Power BI - Developed an analytics solution featuring dynamic Slicers and KPI Cards to visualize sales distribution across multiple dimensions. - Applied visualization best practices to ensure clear storytelling and identification of the top-performing regions.

EDUCATION

B.Sc. in Computer Information Systems, Taibah University	06/2026 Madinah
Interactive Map of Madinah, Database & GIS Project	
- Designed a relational database schema in SQL to organize and manage geographical data for an interactive mapping application. - Applied database modeling techniques to improve data integrity, consistency, and query performance. - Developed a scalable database structure to support efficient access to location-based information and analytical workflows	

PROFESSIONAL DEVELOPMENT

STEP English Proficiency Test Score: 83
